

The Dutch Producer and DJ Jengi has been steadily building a name for himself since he dropped his first single 'Bruh'. After the success of his first EP Colors, this young talent released several more EP's, titled 'Sprinkles', 'Rare' and 'Zombies'. His biggest release to date was an official remix of viral-hit Bazzi, Mine, with more than 9 million streams to date. His latest single 'Get Down' was released on The Magician's Magic Tape 100 compilation.

Recently, Jengi delved into the world of raw club music where he continued his artistic journey. He received worldwide recognition with his Bel Mercy Remix (from Berlin Trauma EP) which was picked up by Diplo. He has also collaborated with Dutch artists FS Green and LEYO (alterego of Bizzey). Together they released a bootleg EP 'The House Of Pablo' - a house version of Kanye's 'The Life of Pablo' - which received lots of recognition from the dj scene. Jengi has also produced numerous tracks for former Yellow Claw member Bizzey e.g. 'Zet je goed' and 'Buketlist'.

Keep an eye on this youngster as he promises to be the next big thing.
